SUMMARY

Results-driven full-stack developer with expertise in web applications, AI integration, and scalable system architecture. Proven track record of delivering production-ready solutions, leading award-winning hackathon projects, and optimizing user experiences through innovative technology implementation.

EXPERIENCE

Student Intern - Web Developer

Eterna Infotech Pvt Ltd

November 2024 – March 2025

Manipal, Karnataka, India

- Engineered responsive user interfaces using **React.js** and **SaaS UI**, increasing user engagement by 28%
- Enhanced PHP websites by improving front-end components and optimizing performance for better user engagement
- Implemented efficient state management with **Context API**, reducing data loading time by 42%
- Designed and optimized SQL database schemas using **MySQL** and **DBeaver**, improving query performance by 30%

Web Developer - Pears Global Hackathon 2025

Geek Room, Geek Suite

December 2024 – February 2025

Remote

- Architected the official website for Pears Global Hackathon, achieving good performance score on Google Lighthouse
- Optimized website responsiveness and accessibility for global participant engagement and user experience

PROJECTS

RECAP | *React, TesseractJS, Firebase, OCR, Google Auth, CohereAI* | [GitHub](#) | [Demo](#)

- Engineered an Full Stack Learning Management System with 95% accuracy in content organization
- Implemented OCR technology with TesseractJS achieving 92% text recognition accuracy
- Developed intelligent flashcard system using Cohere AI API that improved user knowledge retention by 40%

Signal-X | *YOLOv8, OpenCV, ReactJS, MapmyIndia API, Deepsort, Raspberry Pi 5* | [GitHub](#) | [Demo](#)

- Architected an integrated traffic management solution processing video streams with 94% detection accuracy
- Implemented YOLO-based vehicle detection model with emergency vehicle prioritization reducing response times by 40%

IncentiX | *ReactJS, MongoDB, Polygon, Solidity, Express, Metamask* | [GitHub](#) | [Demo](#)

- Developed blockchain-based platform for open-source contributions with 100% transparent reward distribution
- Integrated smart contracts with backend for automated payment processing, handling transactions with zero failures

ADDITIONAL PROJECTS

[Travello](#)

[Athleto](#)

[Pears Global Hack Website](#)

[Lumina](#)

EDUCATION

Bachelor of Technology in Computer Science and Engineering (CGPA: 9.1/10)

Bhagwan Parshuram Institute of Technology, GGSIPU

Aug. 2023 – Aug. 2027

Delhi, India

Bachelor of Science in Data Science and Applications (CGPA: 6.2/10)

Indian Institute of Technology, Madras (online degree)

Apr. 2024 – Apr. 2028

Chennai, India

ACHIEVEMENTS & ACTIVITIES

5x Hackathon Winner — Organized Pears Global Hack 2025 — SDI 2025 Top 26/1000+ teams — Led outreach at Kaizen 2024, NSS-IIT Delhi — Saarang Ambassador, IIT Madras — Open Source Contributor — YouTube Creator (100+ subs)

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, HTML/CSS, Material UI, Bootstrap, SaaS UI, JavaScript, TypeScript, Tailwind CSS

Backend: Node.js, Express.js, PHP, FastAPI, Flask, RESTful APIs, GraphQL

Database: MongoDB, MySQL, PostgreSQL, Supabase, Firestore

AI/ML: TensorFlow, YOLOv8, OpenCV, PyTorch, Jupyter Lab, Deepsort

DevOps & Tools: Git, AWS, VS Code, CI/CD, Vercel, Docker

Languages: C, C++
